

Development Engineer (m/f/d) ADAS / AD Systems - System Development

📍 Chemnitz, Munich, and Weyhausen

Level of experience: Experienced

Your purpose

System development of ADAS / AD vehicle systems

Tasks you will take on

- System design, definition of system functions and components
- Definition and management of system requirements
- Design of system architecture
- Coordination with system and component suppliers
- Application of automotive processes and standards (ASPICE, ISO26262)
- Analysis and troubleshooting

Your qualifications include

- Successfully completed studies in e-technology, computer science or similar
- Experience in vehicle systems and vehicle architecture for ADAS/AD
- Experience with Requirements management tools (IBM Doors, Codebeamer, PTC Integrity)
- Experience with System architecture tools preferable (Cameo, Enterprise Architect)
- Experience in model based systems engineering preferable (SysML-standard)
- IREB RM or Systems engineer certificate preferable
- Basic knowledge about ISO26262 preferable
- Good skills in German and English language

Your skills include

- Analytical and conceptual thinking
- Strong team and communications skills
- High degree of personal responsibility and initiative

What's in it for you

For more flexibility

We offer individual & flexible working hours, mobile working, flexible work assignments as well as a parent-child office.

For your development

We offer individual development paths, further education & training as well as comprehensive onboarding.

For your well-being

From the company doctor to a wide range of sporting activities such as yoga or volleyball to massage.

For your strengthening

We offer catering, free coffee specialties & water, daily fresh fruits and 30 vacation days.

For our team spirit

Regular events take place. From team events to company celebrations and after-work events.

For your wallet

We offer a Spendit-Card, VWL, a company pension scheme pension plan and a fair basic salary.

Contact us

We develop functions and associated services for automated driving, driver assistance and mobility.
